*Get a step-by-step visual training that will ensure successful OASIS assessments for all disciplines.*

#### DVD/CD

#### Price: \$75 + Tax & Shipping

The DVD will be mailed to you within 72 hours of payment. Standard mailing rate of \$2.25 will be added to your bill.

#### Includes

- Video
- Handout
- Pre-test

#### How to Use the Tool Kit

This curriculum was designed to teach and train you in incremental steps so you can master the material. In addition, at the end of each item presented, you will be tested. Take time to share your answers before continuing to the next item.

#### Continuing Education Credits

As designers of this content are from MN, MN approves content from the MN Board of Nursing. Other states may submit the contents to your own state's accreditation boards for continue education credits. For CEU's contact you're state association.

#### Suggested Audience

Anyone who oversees or completes the OASIS assessment.

## Transdisciplinary Competency Skills for OASIS

### Helping Providers Improve OASIS Assessment

A challenge to health care providers who struggle with the OASIS assessment required for reimbursement of Medicare services is to come together to improve the quality of health care and to eliminate disparities. Improving health literacy skills along with a transdisciplinary approach to care contributes to effective patient-provider communication. This video addresses a team approach to OASIS assessments and will take you on the functional ability assessment that both nurses and therapists can use when assessing functional abilities. The tool kit covers eight functional mobility items, which include ambulation, transfers, bathing, pain, medications, dyspnea, continence and wounds. In addition, the authors provide a power-point and test to share with your clinicians that will help your team to eliminate OASIS disparities and improve health literacy.

#### You Will

- Take away some preset tools for you to use with your agency colleagues to improve inter-rater reliability across assessors.
- Understand new OASIS-C questions and how to accurately score them.
- Identify appropriate interventions and best practices.
- Work harmoniously with specialists from several fields combining skills and resources for best patient care.

#### Items Covered

- Pain – M1240 & M1242
- Wounds – M1340 & M1342
- Medications- M2020
- Ambulation – M1860
- Bladder Control – M1610 & M1615
- Transfers – M1850
- Bathing – M1830
